BRIEF INFORMATION ABOUT THE ACTIVITY (**CRITERION NO. -**                   ):

TOPIC/SUBJECT OF THE ACTIVITY	Intellectual Property Rights
OBJECTIVES	The importance of IPR can not be overlooked in the present world. Intellectual Property is the creation by a human mind, through its intellect, whereas Intellectual Property Rights are the protection granted to such creations by way of law.
METHODOLOGY	An advertisement placed on the college website attracted students from within the college as well as other colleges of Delhi University. Some joined from colleges outside of DU also. Classes were held on Saturdays as well as holidays, usually for two hour duration, followed by question-answer sessions and discussions. Speakers who were experts in the field of IPR were invited to give these lectures.
OUTCOMES	Highly interactive sessions were held between the students and the experts, Mr.Hari Subramaniam and Ms.Dahlia Sen Oberoi, over twelve weeks. Students gained a lot of information about IPR and benefitted from the innumerable case studies that were discussed in these classes. This was beneficial for the young learners as they could appreciate that it was important to protect their own creative ideas and also not to indulge in plagiarism.
