BRIEF INFORMATION ABOUT THE ACTIVITY (CRITERION NO. I, II, V, VII):

TOPIC/SUBJECT OF THE ACTIVITY	Synthetic Biology, Theme for the Magazine Expressions 2020-21
OBJECTIVES	"Education is not the learning of facts but the training of the mind to think". We at the department of Biochemistry believe in this quote by Albert Einstein and the compiling of the department magazine every year is one such endeavour to train the mind to think creatively.
METHODOLOGY	After a lot of online brain storming sessions by students, "Synthetic Biology" was decided upon as the theme for Expressions 2021. A poster was released to showcase the importance of the magazine theme and articles were invited by the students. An overwhelming response was received, the articles were checked for plagiarism, edited and compiled by the student body, under the guidance of teacher coordinators. Cartoons, crossword, picture gallery were the other contents of the magazine, along with a centre page which depicted the progress of synthetic biology.
OUTCOMES	<p>The exercise of compiling the magazine, catalyses the thinking abilities, writing skills and all creative abilities of the students and the result is a magazine with a new dimension every year. Synthetic biology is an emerging field of science & technology, which has far reaching consequences on therapeutics, microbial production of biofuels and pharmaceuticals, diagnostics, vaccine production etc. The magazine this year had a number of articles based on the progress of synthetic biology in the last two decades and its future in the coming years.</p> <p>An interview with a renowned scientist is a special feature of the magazine every year. This year an hour long interview with Dr. Shahid Jameel, an internationally acclaimed virologist was held in online mode. He addressed, the much debated questions on Covid 19 being a synthetic virus and put to rest the myths associated with the Covid 19 vaccine, besides giving valuable tips to students to excel in academics.</p>
