BRIEF INFORMATION ABOUT THE ACTIVITY

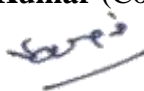

TOPIC/SUBJECT OF THE ACTIVITY	Online workshop on the topic “Drawing, Analysis & Computational Skills: Scientific Softwares for Education, Research & Publication”
OBJECTIVES	This hands-on, interactive skill enhancement workshop was aimed at imparting computational skills on the use of various scientific softwares that are essential for students or researchers with chemistry as a major subject.
METHODOLOGY	The online workshop was conducted by Mr. Charitra Gaur, an expert of Scube Scientific Software Solutions. In the session, he introduced the students to ChemDraw, Chem3D, Mnova, Gaussian, and GaussView. He explained how to best use these softwares in chemical research and how it

	greatly helps in publishing a paper. It was an interactive session with questions and answers with the participants, followed by assessments that enabled students to implement the skills they learned.
INVITED SPEAKERS WITH AFFLIATION DETAILS (IF ANY) -	-
OUTCOMES	Around 188 undergraduate students from various Colleges attended the workshop. The workshop helped to impart knowledge about various softwares as well as provide hands-on training. The resource person could arouse interest and enthusiasm among the participants to seek and learn the various softwares and tools which are essential to pursue a career in scientific research. There were also multiple doubt clearing sessions, in which the students participated actively.
