REPORT

2nd year students of Department of Chemistry, Sri Venkateswara College organised FAREWELL for outgoing batch of chemistry 2023.

A farewell is an event that marks the departure of an individual or a group of individuals from a particular place, organization, or community. Farewells are usually marked by various activities and ceremonies that are intended to honour and recognize the departing individual or group.

Farewells can be emotional events, especially when the departing individual or group has had a significant impact on the lives of those who are leaving behind. It is common for people to shed tears during a farewell, as they express their gratitude, sadness, or appreciation for the departing individual or group.

The event was started by welcoming all the 3rd year students, followed by inviting the teachers to join the program. Gifts were given away by the teachers to the seniors as a token of love. Amazing dance performances were performed by both 1st and 2nd year students. Few 3rd year students also performed. Some shared their college life experience, how they met for the first time with their classmates, how they were feeling when the college started in offline mode but later realized what a beautiful journey they have covered over these years. How much they will miss their amazing teachers who guided them, friends, the college building, bunking the classes and sitting in the canteen, the time spent in the campus with friends. Such expression of feeling made the moment nostalgic.

Some seniors also sang melodious song, some performed dance. Some entertaining games were also arranged for them like paper dance, fun riddles, task performing games. On the bases of the performance in these games the titles like Mr. Charming, Ms. Charming, Mr. popular, Ms. Popular etc. were given to the most suitable one.

The program ended with everlasting memories, beautiful photographs and blast of laughter's. All the students enjoyed the event.
