Criterion IV	Learning Resources and Infrastructure		

PROOFS

Summary Report:

Among all the exciting events hosted at CONSORTIUM'20, Torque was another interesting competition where participants had to solve a mind-boggling case study and present solutions to the same. A little delay in the event did not let the participants down, for they played various games to break the monotony and were also awarded with various goodies from our sponsors on winning. The event had a preliminary round in which a total of 24 teams from various colleges and courses participated. They were asked to solve a crossword puzzle to test their general awareness. Only 10 teams qualified for the main round and rest 14 of them had to leave with a heavy heart.

The qualified teams were excited and nervous at the same time as case study was about to be distributed. They were given ample time to read and analyse

the case study. After that they were asked 3 country preferences in an order depending upon the country suitable for their case study. In the next round, crisis was given to the teams that made the event even more thrilling. Participants were asked to identify the crisis that affected them and the company they felt was affected too. The countries were allotted to the teachers who acted as their representatives and listened to the pitch of the participants. The marks were distributed in the ratio of 7:3 for round 1 and 2. All in all, the teams had a great time participating in the event and really liked the concept of country allocation and crisis.

Highlights: Interesting team names definitely made the other teams and comsoc members laugh and created a lively environment in this formal event. To name some - Makkhan Maarke, Kitne aadmi the, Alcoholics, Peaky blinders etc.
