Dr. Neha Singhal

The students were given a reality check of the shift in the culture and behaviour of the society and of the opportunities now available to them. A few students were asked about their long-term goals to which made it evident that while some students have a clear direction of what to do in life, others have not made up a mind yet and will benefit from counselling sessions.

The duration of the session was around 1 hour. It ended on the note of Dr. Neha Singhal reaching out to students and inviting them to speak to her regarding any issues faced by the students.
