BRIEF INFORMATION ABOUT THE ACTIVITY (CRITERION NO. VI) :

TOPIC/SUBJECT OF THE ACTIVITY	Online Workshop on Lab Safety and Waste Management
OBJECTIVES	The two day online workshop on “Lab Safety and Management” aimed to increase awareness and knowledge on science laboratory management, safety and handling techniques amongst participants. The lectures covered during the program gave an insight into lab safety necessities and safe practices along with a need and means of lab waste management.
METHODOLOGY	Remote and online learning on Lab Safety and Management was performed on Google meet and Zoom platform by resource persons. These provided one to one interactive session via verbal and chat mode of communication to make attendees comfortable in online learning. Graphic aids in the presentations made the process of delivering information to the attendees simple and easy to comprehend. During the session short video clips were played in order to enhance their knowledge.
OUTCOMES	The knowledge and content shared by speakers over two days made participants learn laboratory safety and waste management techniques in a comfortable manner. This training sensitized participants on the risk associated with casual lab management techniques to health and environment. Participants understood well the necessity of segregation, recycling and proper disposal of waste at laboratory level. The training introduced many new concepts which will encourage the participants to practice basic lab management methodologies on regular basis to avoid any accidents. The feedback received from the stakeholders on the learning experience during the workshop further proved that it was a great success.
