“Education is what remains after one has forgotten what one has learned in school.”

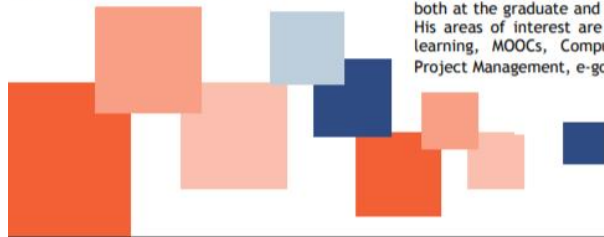

—Albert Einstein.

These words by Albert Einstein aptly reflect the fact that effective education is constant and always evolving. In fact, the face of education has experienced a sea change over the decades. Once characterised by the traditional classroom model, education has metamorphosed into learning that is instant, online, self-driven and on the go. The journey of education in India, too, has been dotted with innumerable milestones—the most recent among these is e-learning.

ABOUT THE PROGRAMME

The purpose of this FDP cum workshop is to create awareness among the teachers about e-learning and MOOC's (Massive Open Online Courses) and how these, as Digital India initiatives of the Government of India, are going to change the face of higher education in our country. Both e-learning and MOOCs are manifestations of integration of Information and Communication Technology (ICT) with education. ICT enabled teaching can make a huge impact on the student learning process and can help them acquire skills like digital literacy, innovative thinking, creativity, sound reasoning and effective communication.

This 4-day FDP includes lectures as well as extensive hands-on training by eminent resource persons who will provide both theoretical as well as practical exposure to the participants enabling them learn and implement technology-based pedagogical approaches like, *Blended Learning and Flipped Classroom*, in teaching. The Workshop will provide exhaustive information on *e-learning, electronic content creation, its hosting using Moodle as LMS and MOOCs*. It will enable participants to know about the electronic content generation, content management on MOOCs platforms, and management of learning assessment using Moodle MOOC Platform etc. to create better and active communication and collaboration with the students.

Sub: Invitation for delivering lecture and skill based technical sessions for Faculty Development Programmes on "ICT Enhanced Teaching and Learning" organized by the IQAC, Sri Venkateswara College on November 2-4, 2018.

Dear Prof. K. Srinivas

I am pleased to inform you that IQAC, Sri Venkateswara College, University of Delhi is organizing a four-day Faculty Development Programme (FDP) on "ICT Enhanced Teaching and Learning" for the undergraduate teachers of Sri Venkateswara College on November 1-4, 2018.

Sri Venkateswara College, a constituent college of University of Delhi, under the aegis of Tirumala Tirupati Devasthanams (TTD) is ranked among the top colleges in Delhi. The College offers undergraduate programs in Science, Humanities and Commerce. The College has been accredited 'A' Grade by NAAC in the year 2015 and has been awarded STAR College Status by Department of Biotechnology, Ministry of Science & Technology in 2015.

The objective of this FDP cum workshop is to create awareness among the college teachers about e-learning and MOOC's (Massive Open Online Courses) and how these, as Digital India Initiatives of the Government of India, are going to change the face of higher education in our country. With your immense expertise in the field of e-Learning, blended learning, ICT enabled Pedagogy and MOOC's, it will be an honour to have you in our college as a resource person for this FDP which is targeted to benefit the Undergraduate level teachers of Sri Venkateswara College. The motive is to provide the participants hands-on training so as to equip them with the requisite skills and resources to use MOOCs and other e-learning pedagogical methods for imparting efficient digital education to the students. The program brochure and schedule are attached with the letter for your perusal.

On behalf of the organizing committee, I take this opportunity to invite you for delivering lecture and conducting skill based technical workshop from November 2-4, 2018 at Sri Venkateswara College, sharing your valuable experiences with the participants.

Looking forward to hearing from you.
