Criterion III	Research, Innovations & Extension		Criterion VII	Institutional Values & Best Practices
Criterion IV	Learning Resources and Infrastructure			

REPORT

The session commenced with an alumnus sharing their experiences at Sri Venkateswara College and addressing the students. Following this, the speakers provided an explanation of what an actuary does and the nature of their work. They emphasized that mathematical and statistical analysis, programming and software, communications, business acumen, and general knowledge are key components of an actuarial career.

The discussion progressed to the journey of becoming an actuary, which involves progressing from a student to an associate actuary and eventually a fellow actuary. The speakers also shared their personal journeys of becoming actuaries, providing valuable insights into the profession.

Additionally, the speakers discussed what constitutes a successful career in actuarial science and what components contribute to success in a comprehensive sense. They then went on to talk about Milliman, its history, the nature of its work, and its reach.

The session concluded with a Q&A session, where students had the opportunity to ask questions and clarify any doubts the students may have had.
