Number of internet users in India

- In 2021, India had over 830 million internet users across the country.
- This figure was projected to grow to over 1.5 billion users by 2040, indicating a big market potential in internet services for the south Asian country.
- In fact, India was ranked as the second largest online market worldwide, coming second only to China.
- The number of internet users was estimated to increase in both urban as well as rural regions, indicating a dynamic growth in access to internet.
