REPORT

The recruitment drive was conducted on 7th November 2022 which began at 10:00 am and continued till 3:00pm. More than 200 students got themselves registered for becoming a member of the club as well as for the orientation program.

An informative board was set up with posters explaining in brief about all the 6 thrusts of Eco club to attract the students and help them brainstorm their minds and get a clearer idea of our past achievements and future goals.

The existing members of the club volunteered in aiding the students to register and explain in brief about the thrusts, their basic functioning and their present status to all the innovative and curious minds. The event was made successful by constant support of the teachers, college staff and 20+ volunteers. With overflowed interests of students. A google form was also circulated the very next day for the ones who could not register themselves due to some reason. The orientation programme will be taking place in the month of January.
