BRIEF INFORMATION ABOUT THE ACTIVITY

TOPIC/SUBJECT OF THE ACTIVITY	INAUGURAL LECTURE ON “ Radiotheranostics for Molecular Imaging and Precision Nuclear Medicine ”
OBJECTIVES	The objectives of the interaction were as follows: <ul style="list-style-type: none">• Give them an insight into the life and journey of our distinguished alumni Dr. Puja Panwar Hazari.• Inspire students to take a career in Radiotheranostics for molecular imaging.• Brief them about possible career options for the future with or without chemistry.• Discussed molecular imaging and nuclear medicine.• Answer student queries and doubts about their future and research opportunities.
METHODOLOGY	Dr. Puja Panwar Hazari was invited to present on Radiotheranostics for molecular imaging and interacted with students on a one-to-one basis. She shared her life stories, successes, and failures with the students. This was followed by an interactive question-answer session in which students in the audience asked her several questions, which she answered in the best manner possible.

INVITED SPEAKERS WITH AFFILIATION DETAILS (IF ANY)	Dr. Puja Panwar Hazari, scientist “F” Joint Director, Head Advanced Radioisotope production centre, Institute of Nuclear Medicine and Allied (INMAS), DRDO, New Delhi, India.
OUTCOMES	Students learned about Radiotheranostics for molecular imaging, radiotracers at INMAS, the importance of AI in drug development, and precision nuclear medicine. They had fun and got an opportunity to interact with DRDO scientists. They also got a hint of how successful and amazing their life can be, with the choices they have made by deciding to study chemistry.

REPORT

Rasagya, the Chemical Society of Sri Venkateswara College celebrated its **Golden Jubilee** by organising an inaugural lecture on, “ **Radiotheranostics for molecular imaging and precision nuclear medicine.** “

The event was inaugurated by Saraswati Vandana and lamp lightening followed by the announcement of core members (2023-24) of the society by the convenor of the society, Dr. Mercy Jacob.

Dr. Puja Panwar Hazari, Joint Director, INMAS, DRDO, an esteemed alumnus of our college, enlightened us with her knowledge and valuable insights. Her lecture started with a brief introduction about the importance of chemistry in various fields and everyday life, followed by a discussion on Radiotheranostics – AI in drug development, molecular imaging, click chemistry and nuclear medicine. The lecture also discussed the possibilities, reach abilities, and recent advancements in Radiotheranostics research and development.

This was followed by question–answer session in which the students were given time to interact with her. Students enjoyed the 2-hour session and got useful information on their possible future career paths after completing their graduation from B.Sc. (H) Chemistry as well as the scope of radiotheranostics. A vote of thanks was given by the Department of Chemistry with a small token of appreciation to our valuable guest. The event ended with the announcement of the winner of the logo-making competition and the launch of the new logo of Rasagya, the chemical society.

The esteemed scientist was invited to the event:

Dr. Puja Panwar Hazari: scientist “F” Joint Director, Head Advanced Radioisotope production center, Institute of Nuclear Medicine and Allied (INMAS), DRDO, New Delhi, India.

The students were enlightened by the information shared by our guest speaker, Dr. Hazari, which will definitely act as a source of guidance and a ray of inspiration for all of them. She surely motivated and encouraged all of the students to understand the fact that anything can be achieved in life if one stays committed to one’s goals and puts hard work into it.
