REPORT

The Y20 Chaupal took place on 24th April 2023 at the Amphitheatre of TERI SAS, from 6:00 PM to 7:00 PM. This was an open-air peer-to-peer discussion event where 06 students of our college from different courses (B.Sc. (H) Mathematics, B.Sc. (H) Biological Sciences, and B.Sc. Life Sciences) accompanied by Dr. Pankaj Kumar, Department of Environmental Sciences, participated to explore the role of youth climate leadership in accelerating low-carbon initiatives at the subnational level.

The event provided a platform for students from various institutions, young professionals, and fellows from different states to engage in meaningful conversations about the crucial role of youth in addressing climate change. With the participation of State Climate Fellows and the Climate Group India team as moderators, the discussion focused on select thematic areas that are pertinent to youth climate action in India.

One of the key topics addressed during the discussion was the importance of youth climate action through initiatives such as Climate Group's State Climate Fellows program and other climate fellowships. Participants exchanged ideas on how young individuals can effectively reach out to senior leadership in governments to facilitate climate action. The session also shed light on the available opportunities for green jobs and highlighted the core competencies required to pursue a career in this field. Major government-authorized platforms that foster upcoming solutions for climate change were also highlighted.

By bringing together students, professionals, and fellows from diverse backgrounds, the Y20 Chaupal provided a valuable space for exchanging knowledge, sharing experiences, and fostering collaboration in the realm of youth climate leadership. The event encouraged participants to think critically about the pressing climate challenges and explore innovative solutions to accelerate the transition towards a low-carbon future.

The Y20 Chaupal successfully highlighted the significance of youth climate leadership in driving sustainable development at the subnational level. It served as a catalyst for empowering young individuals to actively engage in climate action and take up leadership roles to address the pressing challenges of our time. The event was a testament to the collective commitment of the participants and organizers toward building a sustainable and resilient future for all.

° CLIMATE GROUP

Y20 Chaupal

Youth climate leadership for accelerating low carbon initiatives at the subnational level

We're co-organising a **Youth20 (Y20) Chaupal** with the Y20 Secretariat under India's G20 Presidency. The forum will catalyse discussions on these themes:

- the importance of youth climate action through Climate Group's State Climate Fellows and other climate fellowships
- how youth can reach out to senior leadership in governments for facilitating climate action
- the opportunities available for green jobs and the core competencies required.

The **Y20 Chaupal** will be an open air peer-to-peer discussions with students from various institutions, young professionals and fellows from other fellowships in Delhi. This participatory discussion will be based on a semi-structured questionnaire leaving scope for wider participation between the attendees and the panel of Climate Group's State Climate Fellow, moderated by us.

Date: Monday 24 April 2023

Time: 6:00 PM - 7:00 PM IST)

Location: The Amphitheatre at TERI SAS

Format: Y20 Chaupal: open air, peer-to-peer discussion
