Criterion III	Research, Innovations & Extension	Criterion VII	Institutional Values & Best Practices
Criterion IV	Learning Resources and Infrastructure		

Report

CFP Rishi Narang started off the session by covering several important aspects of financial planning, starting with the concept of an emergency fund. He explained the meaning of an emergency fund, the importance of maintaining a balance between liquid and non-liquid investments. He also touched upon the adequacy of health and life insurance coverage, highlighting the minimum cover one should opt for. Further, the speaker discussed the difference between investment and saving, explaining how the returns differ and addressing concerns related to principal protection in investments. He then debunked common investing myths, such as the belief that one needs a large sum of money to start investing or that investing is the same as gambling.

He stressed the importance of cultivating the right attitude for successful investing, emphasizing the need to understand the impact of inflation and the power of compounding. Highlighting the negative impact of inflation, he pointed out that inflation is eating into our savings and urged attendees to acknowledge its effects and take timely action.

Mr. Rishi then threw light upon the various asset classes, including cash, equity, debt securities, and gold. The speaker elaborated on the returns of various asset classes, noting that equities have delivered the best returns historically but also acknowledging the volatility of the equity market.

Finally, he introduced the attendees to the CFP Program, explaining its relevance in personal financial planning and how it can help individuals in achieving their financial goals. The session concluded with a Q&A Session wherein any queries the students had were resolved.

Rishi Narang (Presenting)

Without Investing You Are At The Mercy Of Inflation

Inflation is eating into our Savings. The sooner we realize it the better

- Your savings into the bank account gives you interest however this interest is without any inflation adjustment. Ideally, we should look at real rate of interest (i.e. nominal-inflation)

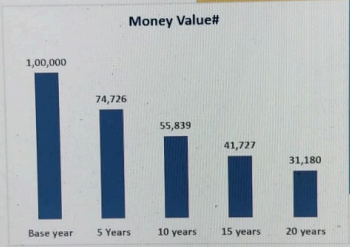

Cost of living monthly#

Year	Cost of living monthly#
Base year	50,000
5 Years	66,911
10 years	85,542
15 years	1,19,828
20 years	1,60,357

Inflation rate assumed to be 6% p.a.

Money Value#

Year	Money Value#
Base year	1,00,000
5 Years	74,726
10 years	55,839
15 years	41,727
20 years	31,180

20 Jan 2025 4:39:55 pm

Image 1: Speaker discussing the downside of inflation, how one must realise it is negatively impacting our savings with the rising costs of living
