**Subject: Permission to conduct the "Green School Initiative" in our school as a part of Environmental Outreach Program.**

Dear Sir/ Madam,

We are pleased to inform you that Sri Venkateswara College, University of Delhi has signed an MoU with the Department of Pulmonary Medicine and Sleep Disorders, AIIMS, New Delhi, to conduct Environmental and Health awareness programs. Under the MoU, Eco Club of Sri Venkateswara College, University of Delhi is conducting Green School Initiative in association with Department of Pulmonary Medicine and Sleep Disorders, AIIMS, New Delhi, an outreach program to sensitize school children about pressing environmental issues and associated health hazards. Adverse environmental changes have negative impacts on our quality of life, and the worst sufferers would be the future generations. Therefore, the need of the hour is to sensitize youth especially school children towards exigent environmental issues and challenges, and ways to mitigate and adapt to them.

As a part of this initiative, we would like to hold an awareness program in your school wherein a team of faculty and students from Sri Venkateswara College and doctors and researchers from AIIMS would conduct interactive sessions. In order to encourage active participation from students, we would also be organizing various competitions for classes VII to XI as follows:

- *Poster Making on Recycled Paper* for classes VII
- *Eco-Quiz* for classes VIII and IX
- *Just a Minute* for Classes XI

All participating students will be given a certificate of appreciation. Winners of all competitions will be felicitated during the annual Outreach Program that would be organized at Sri Venkateswara College, New Delhi.

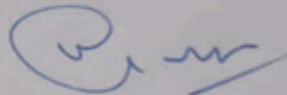

Other events included are:

- *Green school award*: for schools that actively contribute to a greener society

As the sole purpose of our initiative is to create awareness among the younger generation, each participant will receive a certificate of participation for their efforts. We would be grateful if you could kindly permit us to organize the outreach program in your school and let us know a tentative date for the same.

With warm regards,

  
Dr. Pooja Gokhale Sinha  
for  
(Teacher Coordinator, GSI)

  
Prof. K. Chandramani Singh  
(Principal)

## EVENT REPORT

**Event Report:** "Delhi Pollution Awareness" at ANS Senior Secondary School

**Event Title:** Delhi Pollution Awareness

**Date:** 24th January 2024

**Venue:** ANS Senior Secondary School Auditorium

**Objective:**

The primary objective of the event was to raise awareness among students about the critical issue of pollution in Delhi, its causes, impacts, and the measures that can be taken to mitigate it. The event aimed to educate students through various engaging activities and speeches, fostering a sense of responsibility and proactive behavior towards environmental conservation.

**Event Overview:**

The event comprised multiple activities including a quiz competition, bookmark distribution, an awareness speech by a Doctor, poster competition and prize distribution to acknowledge the participants and winners.

**Activities and Highlights:**

**Quiz Competition:**

Description: A quiz competition was organized to test and enhance the knowledge of students regarding pollution, its types, sources, and the specific pollution issues faced by Delhi.

Participants: Students from classes IX to XII.

Format: The quiz consisted of multiple-choice questions, true/false statements, and short answer questions.

Outcome: The quiz engaged the students actively, and the winning teams were awarded certificates and eco-friendly gifts.

**Bookmark Distribution:**

Description: Custom-designed bookmarks with informative content on pollution and tips for reducing it were distributed to all students.

Content: Each bookmark contained a brief message on pollution's impact on health and the environment, along with practical steps students can take to contribute to cleaner air.

Purpose: The bookmarks served as both educational tools and reminders for students to adopt environmentally friendly practices.

### **Awareness Speech by Teacher:**

Speaker: Dr. Pawan kumar, doctor at AIIMS, DELHI

Content: Mr. Sharma delivered an enlightening speech on the following topics:

The current state of pollution in Delhi.

The main sources of pollution, including vehicular emissions, industrial activities, and construction dust.

The health impacts of pollution, particularly on children and the elderly.

Practical steps that students and their families can take to reduce their carbon footprint, such as using public transport, reducing plastic use, and planting trees.

Impact: The speech was highly informative and motivational, encouraging students to take personal responsibility for reducing pollution

**Categories:** Prizes were awarded in several categories, including:

POSTER COMPETITION WINNERS

Quiz winners.

Students who demonstrated outstanding participation in environmental activities throughout the year.

Prizes: Eco-friendly items such as reusable water bottles, cloth bags, and saplings were given to the winners.

Objective: To recognize and reward the efforts of students, fostering a culture of environmental stewardship.

### **Conclusion:**

The "Delhi Pollution Awareness" event at ANS Senior Secondary School was a resounding success, achieving its goal of educating and engaging students on the critical issue of pollution. The combination of interactive activities and informative sessions ensured that students not only gained knowledge but also felt empowered to take action. The school plans to hold similar events in the future to continue promoting environmental awareness and sustainability.

### **Feedback:**

The event received positive feedback from students, teachers, and parents. Many appreciated the comprehensive approach to addressing pollution and the practical steps suggested. The quiz and bookmark activities were particularly well-received, making the learning process enjoyable and memorable.

### **Recommendations for Future Events:**

Workshops: Include hands-on workshops on creating eco-friendly products.

Guest Speakers: Invite environmental experts and activists to share their insights.

Student Projects: Encourage students to undertake projects on pollution control and present their findings.

Follow-up Activities: Organize regular follow-up activities to maintain momentum and track progress in reducing pollution.

**Acknowledgments:**

Special thanks to the organizing committee, teachers, participating students, and all volunteers who contributed to the success of this event. Your dedication and hard work are greatly appreciated.
