BRIEF INFORMATION ABOUT THE ACTIVITY

TOPIC/SUBJECT OF THE ACTIVITY	International Seminar
OBJECTIVES	To inspire students toward research and interdisciplinary learning.
METHODOLOGY	The seminar began with a welcome address by the Teacher-in-Charge and Society President. Dr. Abhishek K. Singh delivered a talk on sustainable chemistry and advanced polymer applications. A Q&A session followed, encouraging student interaction. The event concluded with a vote of thanks and group photographs.
INVITED SPEAKERS WITH AFFLIATION DETAILS	Dr. Abhishek K. Singh Sub-Group Leader, Founder of Abhisoch Trust Research Scientist, Freie University Berlin, Germany

OUTCOMES	Students gained insights into innovative research in chemistry. The session promoted awareness about green chemistry and global research trends. It encouraged students to pursue research-oriented careers.

Report : International Seminar

On 4th of November, the Department of chemistry conducted its international seminar(from the bench to beyond : chemistry as bridge to innovation and education).

The seminar commenced with our traditional lighting ceremony with Saraswati Vandana by the speaker (Dr. Abhishek k. Singh)and our faculty members.The welcoming speach from Dr. Ravindra Upadhyay sir and the introductory speech about speaker by murali mohan achari sir. And Dr. Mercy gifted a sapling to the speaker.

The speaker started off his presentation by emphasizing how important it is for us to make effective antibacterial tools and medicines. he talked about how his team has reduced the average testing time from 48hrs to 4hrs.his speech was very engaging and was easily understood by one and all present there. Dr. Abhishek introduced us all to supramolecules and their tendency to assemble by themselves, in vivo test and cryo-TEM. he showed us via images and his explanation as to how a bioanalytic is formed via droplet based high throughput.

in the later part of his presentation, he talked about how important higher education is and told us his contribution to the education world. Dr. Singh also explained the future possible options for us in the research department by also highlighting the options and benefits of studying abroad especially in Germany since that's where he is currently working from. Dr. Abhishek ended his session by accepting questions from the students- which he made highly interactive by offering a german chocolate to the first person who asked a question based on his slides.

To conclude, the seminar was a great success, igniting the fire of questioning and researching in the minds of aspiring researchers. The first event organized by the chemical society of sri venkateswara college, Rasagya, truly marked the beginning of a series of events to look forward to, giving the students an enriching experience to end their first semester with.
